

SEMPOZYUM

SECOND INTERNATIONAL TURKISH GEOLOGY WORKSHOP

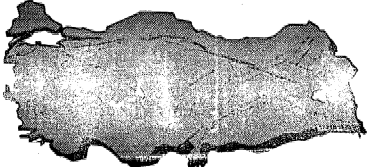

Türkiye jeolojisine katkı amacıyla ilki 1992 yılında Keele (İngiltere) de yapılan ve 3 yılda bir düzenlenen "Uluslararası Türkiye Jeolojisi Workshop" unun ikincisi 6 - 8, Eylül 1995 tarihleri arasında Sivas Cumhuriyet Üniversitesi Jeoloji Mühendisliği Bölümü tarafından gerçekleştirilmiştir,

Toplantıda genel jeoloji, mineraloji - petrografi; maden yatakları - jeokimya, uygulamalı jeoloji disiplinlerine ait ülkemizde yapılmış özgün 78 araştırmanın bildiri ve poster sunumları yapılmıştır. Ayrıca bildiri sunumları yapılmayan Azerbaycanlı araştırmacıların kendi ülkelerine ait hazırladıkları 41 çalışmanın özü, abstract kitabında yer almıştır. Sunulan bildiriye ait makalelerin uluslararası bir jeoloji dergisinde basılması planlanmaktadır. Workshop abstract kitabında yer alan bildirilerin başlıkları ve yazarları aşağıda verilmiştir.

**SECOND INTERNATIONAL
TURKISH GEOLOGY WORKSHOP**

**"WORK IN PROGRESS ON THE
GEOLOGY OF TURKEY"**

September 6 - 8, 1995
Cumhuriyet University, Sivas - Turkey

ISBN 975-7631-30-2

ABSTRACTS

**A THREE DAY INTERNATIONAL WORKSHOP
FOCUSING ON THE CURRENT RESEARCHES
ON THE GEOLOGY OF TURKEY**

- Abbasov, A.B.
Stratigraphy and paleoecological conditions of Cretaceous radiolarities formation of the Lesser Caucasus
- Akay, E. and Erdoğan, B.
Stratigraphic evolution of the Çankırı basin between Yerköy, Yozgat And Sungurlu
- Akyazi* M. and Özgen* N.
About the presence of *Selima spinalis* İnan and *Lafitteina Boluensis* Dizer in the Upper Maastrichtian outcrops at Ilgaz Mountains (Çankırı)
- Alekperöve, K.H.A.
Pleistocene mollusc fauna of Caspia, Its geological and palaeogeographical importance
- Aleskerov, B*
Main stages the development of tectonic movements and relief of Azerbaijan in Pleistocene
- Aliyev, A.D. and Belov, I.
Alternative hydrocarbon sources of Azerbaijan
- Aliyev, G.A. and Babayev, Sh. A.
Stratigraphic distribution of Orbitolines in Urgon deposits of the Lesser Caucasus
- AHeva, E.G.* Birukova, L.N. and Aliev, S.A.
On some palaeogeographic peculiarities of Azerbaijan Upper Pliocene-Pleistocene Basins (By oxygen isotopes)
- Aliev, S.A., Alieva, E.G. and Birukova, U.N.
On temperature conditions of the Upper Pliocene - Quaternary basins in Azerbaijan
- Alieva, S.G. and Shakhbazova, V.G.
Importance of Gastropods for stratigraphy of the Eastern Azerbaijan Quaternary deposits
- Alizade, S.A. and Karayev, T.S.
Magmatic volcanics of Azerbaijan and its geochronology
- Alpaslan, M., Guezoti, J.C. and Boztuğ, D.
Structural and metamorphic features of the Easternmost part of the Kırşehir Block
- Altunel, E. and Hancock, P.L.
Characteristics of extensional travertine-filled fissures in Western Turkey
- Aral, F.
Physico-mechanical properties of the Yıldızeli (Sivas) travertines and their significance in the construction sector
- Atakışhiyev, R. and Aiekerov, A.S.
Upper Pliocene fauna of the mammals in the Western Azerbaijan and its palaeogeographical importance
- Atalay, Z.
Tectono-stratigraphic and sedimentological characteristics of the Tertiary deposits in the W-SW Sivas, Turkey
- Atayeva, E.Z.
Correlation of Miocene deposits of Azerbaijan and Turkey (The Eastern Anatolia)
- AzadaHyev, J.A.
Geologic-genetic model of Copper-Porphyrif formations of geosyncline folded basins (On the example of the Lesser Caucasus)
- AzadaHyev, J.A.,
Some actual problems of the endogenic metallogeny of the Lesser Caucasus.
- Azizbekova, A. R.
Zonal scheme of Upper Cretaceous of Azerbaijan in Mediterranean System (By Foraminiferas)
- Babayev, Sh.
The palaeotemperature regime of inhabitation of the Nummulite's of the Eocene Seas of Azerbaijan
- Babayeva, G.J. and İmämverdiev, N.A.
Composition and conditions of primary melt crystallisation of Upper Pliocene-Quaternary collision magmatism of Lesser Caucasus
- Babazade, A.D., Karayev, T.S., Koshkariy, ILO, and Shakhbazova, V.G.
Micropaleontological investigations of mud volcanoes of Azerbaijan
- Babazade, V.M., Ramazanov, V.G., Kajandarov, B.G., İlüseynzadeh, R.A. and Fataliev* R.A.
Peculiarities of location and preditional criteria of copper-porphyrif deposits of Azerbaijan

- Barka, A. A.,
Active tectonics of Anatolia: Preliminary results of the 1988-1994 OPS measurements
- Bilgiç, T., Alışan, C. and Tulu N*
The age and the microflora of the coal beds in Balkaya Region (Erzurum-Oltu)
- Bozkurt, E.
Metamorphism of Palaeozoic schists in the Southern Menderes Massif: Field, pétrographie, textural, and microstructural evidence
- Dalgıç, S.,
Geotechnical problems in the excavation of the Bolu Motorway Tunnel, Turkey
- Dirik, K. and Göncüoğlu, M.C.,
Neotectonic characteristics of the Central Anatolia,
- Doğan, M., Yılmaz, Y*, Tüysüz, O* and Doğan, A. U.,
Oceanic island imprints of Pontides
- Doğan, A.U., Doğan, M., Yıldız, M., Karakaş, Z., Yıldız, A. and Kndioğlu, Y.K.,
Geology of the Mudurnu valley area with special emphasis on the Western extension of the North Anatolian Fault Zone, Bolu Province, Turkey
- Doğan, A.U.
Mineralogy and crystal chemistry of zeolite group minerals in Nevşehir Province/Turkey
- Doğan, A.I.L., Doğan, M. and Barış, I.
Characterization of fibrous asbestos type minerals from Çankırı, Turkey
- Erler, A. and Goncuoglu, M.C.
Geologic and tectonic setting of the Yozgat batholith
- Efendiyev, A.A. and Efendiyeva, R.M.,
Organic matter of mud volcanoes waters of Azerbaijan
- Elmas, A.,
Geological evolution of the Northeast Anatolia
- Gadjiyev, Y.A. and Karayeva, R.S.,
Volcanoes as indicators of oil and gas presence in the South-Caspian Depression
- Gadlyeva, T.M., Aliyev, G.A. and Zohrabova, V.R.
Hybrid hypothesis of flysch formation (On example of the South-East Azerbaijan)
- Garayev, S.,
On the use of geophysical techniques in the exploration of polymetallic ore deposits in the Great Caucasus Region, Azerbaijan
- Gasonov, T.A.,
A correlation of Jurassic deposits in Nakhichevan, Northern Iran and Northern Turkey
- Geydarov, A.S.,
Radioactive and alkaline elements in granitoids of the Lesser Caucasus
- Gönel, S. and Güven, I. II.
Major element petrochemistry of the Upper Cretaceous - Palaeocene volcanics and implications for the geotectonic evolution of Eastern Pontides, Trabzon - Gümüşhane Region, NE Turkey
- Gökçe, A.,
Geological and genetic similarities within the antimony deposits and prospects in Turkey
- Gökten, E., Çaksoy, V. and Karakaş, K*
Tertiary volcanic and tectonic evolution of Ayaş-Güdül-Çeltikçi Region (NW Ankara)
- Gtiezou, J.Cs., Poisson, A., Temiz, İ., and Güfsoy, İI.
Southward back-thrusting along the northern margin of the Sivas Basin; Kinematics and Late Neogene basin setting
- Gusnov, D.A. and KeHmov, R.B.,
Isotopy of sulphur sulphides and sources of ore formation solution of Gold-Sulphide deposits of the Lesser Caucasus (Azerbaijan)
- Gündüğü, İ. and Helvacı, C.,
Geology and recent evaporite formations of Bolluk and Tefsakan Lakes, Konya, Turkey
- Gürbüz, K. and Uçar, L.,
Book view Miocene biohermal reef bodies in the Mut Basin, Southern Turkey
- Giirer, A.,
The deep conductivity structure of North Anatolian Fault Zone and Istanbul Sakarya Zones along Gölpazarı-Akgaova Profile, NW Anatolia,
- Gürsoy, H., Tatar, O., Teiniz, İL, Guezou, J.C., Ünlüetçi, U.C., and Poisson, A.M.
Tectonostratigraphy and tectonic style of the Terean-Çayirli Basin, Northeast Anatolia
- Hipfel, B., Conrad, M. and Satır, M.
Geochemical characteristics of thermal waters from the Seferihisar area, Western Turkey; A key to genesis and resources?
- Imamverdiyev, N.A.,
Geochemistry of Late Cainozoic volcanic series of collision zones (Lesser Caucasus)
- Isajev, S.A.,
Biogeochemical and microstructural methods in palaeontology
- Kaçareği, F., Değirmenci, M., and Cerit, O.,
Hydrogeological investigation of the Cumhuriyet University Campus Area and its vicinity, Sivas-Turkey
- Kadıoğlu, V.K., Güleç, N. and Ateş, A.,
Structural position of gabbroic rocks in Ağaçören granitoid: Field observation and aeromagnetic data
- Kadioglu, S.N., Y.K. and Güleç, N.,
Mafic microgranular enclaves and interaction between felsic and mafic magmas in Ağaçören pluton; Evidence from pétrographie features and mineral chemistry
- Kadir, S. and Baş, H.,
Diagenesis of Miocene vitric tuffs in lacustrine environment (Küyunğili-Mihalççık) Eskişehir,
- Kangarly, T.N., Zamanov, Y.J. and AHyev, A.IV.,
The depth geological mapping prospecting undenuded and buried deposits of minerals in depression zones of Azerbaijan
- Kangarly, T.N*
Tectonics of the Southeast Caucasus
- Karaçık, Z. and Yılmaz, Y.,
Geology of the young plutonic and volcanic associations of the Ezme Region; NW Anatolia
- Karayev, T.A. and AH-Zade, S.A.,
Biostratigraphic correlation of the Upper Cainozoic deposits of Azerbaijan with Eastern and South-Eastern Europe
- Karyağdı, S.K. and Vekilov, B.G.,
Comparison of Pontic deposits of Azerbaijan and Turkey
- Kavak, K.Ş? İnan, S., Poisson, A. and Giesou, J.C.
Tectonostratigraphy of the Southern part of the Sivas Basin and its comparison with Landsat MSS Image
- Kerey, t.E. and Bozkıuş, C.,
Tectonostratigraphic characteristics of the Narman-Oltu (Erzurum) Region
- K.ski.i, M.L, Pearce, J.A., Kempton, P.D. and Greenwood, P.,
New 87Sr/86Sr, Nd and Pb isotopic evidence for the extent of crustal contribution to the collision-related lavas on the Erzurum-Kars Plateau, North-Eastern Anatolia, Turkey
- Koçyiit, A.,
Superimposed faults and their relations to the recent strike-slip fault zones: Refahiye superimposed basin adjacent to the North Anatolian Transform Fault (NATF), NE Turkey
- Kurtuluş, C**
Examination of the continuation of the North Anatolian Fault Zone in The Marmara Sea, Turkey
- Korâl, H.,
The deformational features of granitic bodies in the southern extension of the Stranca massif near Çatalca (İstanbul): Discussion in the regional context
- Makhmudov, E.L.
Perlite of Azerbaijan and new fields of their using
- Mamedov, A.V.,
History of evolution of Caspian Sea in the Quaternary period
- Mamedov, A.B.
Devonian correlation of Nakhichevanian autonomous republic with type sections of Ardenno-Rein area and Dinantian Basin and corresponding sections of other regions of the World
- Mamedov, A.X. and Shirinov, F.M.
The model of development of the Paleogene granitoid complexes part of the Lesser Caucasus
- Mirzaga, M., Abdullayev, R.N., Muşafayev, M.A., Samedova, R.A., Shafiyev, KiuL., and Ahmedova, T.G.
Lesser Caucasus Shakhdag synclinorium Eocene, volcanicity peculiarities

Mittwede, S.K., Sinclair, W.D., Helvacı, C. and Karamandereci, T.H.,
Geochemistry of Quartz*Tourmaline nodules from İrtaadan (Muğla*Yatağan), Türkiye

6th INTERNATIONAL SYMPOSIUM ON
FOSSIL ALGAE AND CARBONATE
PLATFORMS

Karbonat Platformları ve Fosil Algleri Uluslararası Sempozyumunun 6. sı 18 - 22 Eylül 1995 tarihleri arasında Ankara MTA Kültür Sitesi'nde gerçekleştirildi. Uluslararası Fosil Alg Demegi tarafından düzenlenen ve Oslo (Norveç) Üniversitesi profesörlerinden D.A. Hoeg (t)'in anısına atfedilen sempozyumda çeşitli ülkelerden gelen araştırmacılar tarafından 33 bildiri ve ayrıca poster sunumları yapılmıştır. Sempozyum abstract kitabında yer alan bildirilerin başlıkları ve yazarları aşağıda verilmiştir.
